SUMMARY

Full Stack Developer with experience building responsive and scalable web applications using modern technologies such as React, Tailwind CSS, Node.js, Express, and MongoDB. Skilled in creating clean user interfaces, integrating APIs, and collaborating with teams using Git and GitHub workflows. Passionate about building efficient digital products and improving user experience.

PROJECTS

Task Management App (Full Stack)

- Implemented JWT authentication and role based authorization
- Developed CRUD operations with protected routes and user specific access
- Added server side filtering and pagination for efficient data handling
- Structured backend using REST APIs, middleware, and modular architecture

Tech Stack: React.js, Bootstrap, Node.js, Express.js, MongoDB, JWT

Live Demo: task-management-app-sigma-eosin.vercel.app

E-commerce Website (Full Stack)

- Implemented product browsing, search, filtering, checkout, and order tracking features
- Developed REST APIs for products, cart management, orders, and delivery handling
- Integrated Sequelize ORM for database operations and structured data management
- Added testing for pages and components using Vitest and Testing Library

Tech Stack: React.js, Vite, Node.js, Express.js, Sequelize, SQLite

GitHub: github.com/Info-Bash/ecommerce-app

Live Demo: ecommerce-app-topaz-six-31.vercel.app

TECHNICAL SKILLS

Frontend:

- React.js
- Next.js
- JavaScript (ES6+)
- TypeScript
- Tailwind CSS

Backend:

- Node.js
- Express.js
- NestJS

Database:

- MongoDB
- MySQL
- PostgreSQL

EXPERIENCE

Frontend Developer Intern – CampusLink

Remote | 2025 – Present

- Built responsive UI with React.js and Tailwind CSS, focusing on reusable components and protected routes
- Integrated REST APIs for dynamic data rendering and improved application responsiveness across devices
- Collaborated with team members using Git and GitHub for version control and feature delivery

EDUCATION

Bachelor of Engineering in Computer Engineering

Oduduwa University, Ipetumodu | 2020 – 2025

- Final CGPA:** 3.52

CERTIFICATIONS

Certificate in Web Development & Graphic Design

- Oduduwa University, Ipetumodu

Frontend & Backend Development Training (React.js & Express.js)

- Dado Tech – Industrial Training Program

TOOLS & PLATFORMS

- Git
- GitHub
- Postman
- Firebase
- Vercel
- Render
